

TESTIMONIALS

Corey has been our son's lesson instructor for the past 4 years. Through these years we have seen the ever-present expertise, support, motivation and inspiration he has provided not only to our son, but also many other boys of all ages. It astounds us how he goes above and beyond what any other sports instructor would do...all for the commitment and support for the boys and for the love of the game. We have witnessed the way Corey has encouraged the discouraged by highlighting the positive progress they have made. We have witnessed the eyes of boys light up when they see Corey approaching the baseball field. We are grateful and thankful for the positive impact Corey has had on our son and will continue to see him in the years to come!

Anonymous Parent

Most coaches can work with gifted players, but it takes a special coach to help a struggling child develop skills and abilities he didn't know he was capable of. Derek has gone above and beyond to make Ryan feel believed in, supported and confident while bringing out the best in him. Derek puts as much into teaching Ryan as he expects Ryan to put into learning. As parents, we couldn't have asked for a better coach for our son.

I am very pleased to see the effort put forth by Corey in creating the Sandlot Baseball Academy. This initiative will go a long way to improving the level of play for everyone who participates and will also ensure our great game can continue to produce tremendous citizens. Corey is one of our most promising up and coming coaches and has succeeded at every level he has been involved in. I would expect he will continue to shine and make a difference.
